National Institute of Bank Management
Pune, India

Cyber risk is an increasing concern today for the banking industry. In the recent past, banks have witnessed large scale heists including card frauds and attack on SWIFT network. Government and regulators are driving banks to enhance their cyber risk management to control the cyber-attacks. Implementing cyber security is an ongoing process and hence training and continuous knowledge upgradation is essential part of it. The Reserve Bank of India has also advised the senior executives of banks to undergo awareness/certification programmes on IT and Cyber Security.

NIBM, so far, has successfully conducted the Certification Programmes for the Senior Management of more than 12 banks, on in-company basis and now we are doing it across the banking industry. Considering the current pandemic situation and need to maintain social distancing we are announcing the same in on-line mode.
