Dr Elizabeth James

National Institute of Bank Management
Pune, India

Programme on Assessment of Working Capital Requirements

A Credit Analyst should make proper independent assessment of working capital requirements so that sales are estimated on a realistic basis at the project appraisal stage itself, keeping in view the installed capacity, the demand for the product, the extent of competition in the market, etc. This can prevent over-financing, extra interest burden, and even diversion of funds which ultimately result in deterioration of the financial health of the company. The real test of quantitative appraisal of bank credit lies in validating the propriety of the margin requirements and whether the available sources of finance and also the financial statements (both actuals and projected) indicate that the amount of margin required can actually be mobilised. Today, non-banking finance companies (NBFC) including online marketplaces under the peer-to-peer (P2P) umbrella are giving banks a run for this business and simultaneously offering more choice to firms, especially MSMEs to fund their working capital needs.

Objectives

In the above context this five-day programme is also equipped with visits to industries to help the participants understand a business and its operating cycle and make a realistic assessment of working capital requirements to meet a borrower's requirement over and above the classroom interactions.

Content

- Working capital requirements for existing and new manufacturing and services enterprises.
- Operating cycle as part of assessment of working capital needs.
- Credit analysis: Industry analysis, business analysis, financial analysis and management.

- Credit appraisal: Basic principles.
- Financial Statement Analysis.
- Trends in working capital finance to corporates.
- CMA format for assessment of working capital.
- Assessment of working capital: MPBF, Turnover and cash flow-based lending: Concept, process and exercise.
- Fixation of sub-limits of working capital facilities fund based and non-fund-based.
- Financing of imports and exports.
- Use of buyers' credit for financing working capital.
- Stock audit, inspection and fraud management.
- Cash budgeting method.
- Concepts of chargeable current assets.
- Monitoring and control of end use of funds.
- Early warning signals in the conduct of the account.
- Consortium lending and multiple banking issues, lending arrangements-role responsibilities, due diligence, sharing of information.

Target Group

Credit analysts and credit officers in Scale I, II and III with a minimum of two years' experience in credit. Junior level credit analysts/credit officers from commercial banks, infrastructure finance companies, NBFCs, cooperative institutions and credit rating agencies would find the programme useful.

Pedagogy

The methodology for the programme has been designed to give experiential and participatory learning to the participants. Accordingly, lecture sessions, exercises, live-case analysis, group discussions and interfaces with practitioners and visits to manufacturing units in Pune will be facilitated.

Dates

June 04–08, 2018

The programme will commence at 9.00 am on Monday, June 04, 2018 and will conclude by 5.00 pm on Friday, June 08, 2018. Participants are requested to reach NIBM campus by the evening of June 03, 2018.

Venue

NIBM Campus, Kondhwe Khurd
Pune, India.

Accommodation

The programme is fully residential. Participants will be provided well-furnished single room AC accommodation in the Institute's hostel complex on the campus. However, they will not be permitted to bring their family members to stay on the campus. In case any Officer/Executive with physical/medical disability is being nominated, kindly inform us in advance with particulars of disability to facilitate necessary arrangements.

The Institute has facilities for outdoor and indoor games and a large walking/jogging trail for physical fitness besides a yoga centre. Participants are therefore encouraged to bring appropriate clothes/gear.
