

Joint Certification Programme on Indian Accounting Standards (IND AS) for Credit Officers in Banks with KPMG in India as Knowledge Partner

In line with the global trend, the finance minister in his Union Budget 2014 speech announced the decision of adoption of Indian Accounting Standards (IND AS) converged with International Financial Reporting Standards (IFRS) by public entities in India, in a phased manner, beginning from the financial year 2016 -17. The first quarter results, beginning June 2016 (with IND AS comparatives of June 2015) of large corporates are being announced under INDAS.

The implementation of IND AS is expected to have a material impact on the presentation and preparation of financial statements by companies. Many of the significant ratios used for credit appraisal/annual review of borrowers are likely to undergo a change, thus resulting in changes in credit ratings, possible breach of loan covenants, etc., which in turn may require changes in loan pricing, recall of loan, etc. The loan impairment provisions under IND AS require significant changes in the way data is captured by the credit teams. These changes will entail modification in the credit policy of banks.

Objectives

To enable credit officers in banks to understand significant changes in presentation and interpretation of financial statements under IND AS and obtain an overview of the material changes due to provisions of important IND AS as well as the implications on various ratios used for analysis and lending decisions.

Faculty

Experienced professionals from KPMG in India will conduct technical sessions with support from NIBM faculty.

Content

The topics to be covered in this programme designed specifically for credit analysts/credit officers in banks are as follows:

- o **Preparation and Presentation of Financial Statements**
 - Y Standalone and Consolidated Financial Statements
