Programme on Cyber Security – Implementation and Compliance

Background

Cyber risk is an increasing concern today for banking industry. Governments and regulators are focusing on banks for increasing their cyber risk management to respond to cyber-attacks. Banks need to report cyber incidents within six hours to RBI. Many banks today are interested in adopting new technologies like block-chain, Big-data analytics, IoT, cloud based services and collaboration with Fintech companies. Every new technology has its own risk related to cyber security.

Cyber security has become an essential part of banking ecosystem and banks need to build defense mechanism using state-of-the art technology solutions. Although technology strengthens defense of banks it has to be based on human intelligence. Implementing cyber security is an ongoing process that focuses on implementing and monitoring of threats and detecting the attack as early as possible so as to contain the spread and damages.

With this backdrop, NIBM will organize the captioned programme with a focus on guidance to the banks in understanding various aspects of cyber-attacks and how to provide assurance on cyber-security and compliance by building a comprehensive processes using technology.

Methodology

This programme will have a proper blend of sharing of expertise and experience with help of case studies to be discussed during training.

Target group

Senior managers from IT, Risk management and cyber security and banking operations

Objectives

To provide insight on cyber security implementation, detecting attack and investing them. The programme shall cover:

- Risk assessment for cyber security
- Cyber security compliance requirements by RBI.
- Using cyber kill chain for detecting cyber security incidents
- Resources required and available for threat intelligence
- Cyber forensics
- Technologies required for cyber security like Next generation SOC, SIEM, etc.
- Risk assessment of new technologies.
- Cloud security alliance.
- Vendor management and cyber security.

Course Content

- Regulatory perspective of cyber security in banks
- Risk management and cyber security
