

November 9 – 13, 2020
(Online Course Duration 20 hours)

**Online Programme on
Liquidity
Risk Management
for NBFCs**

Coordinator
Prof Sanjay Basu

**National Institute of
Bank Management**
Pune, INDIA

The ILFS crisis showed how liquidity problems can trigger off solvency concerns at NBFCs. It also demonstrated how funding pressures can spill over into securities markets and spread fast from one institution to another. As a result, RBI issued Liquidity Risk Management Guidelines in November 2019, for NBFCs, which propose stringent methods for liquidity risk estimation, supervision and control. Strict liquidity stress tests have also been prescribed. The Covid-19 pandemic further highlighted the need for effective Liquidity Risk Management at NBFCs, to address short-term funding concerns.

In this context, a sound and comprehensive Liquidity Risk Management framework is vital for NBFCs. It provides them a clear indication of the sources of shocks and their impact on inflows and outflows. It enables them to estimate requisite liquidity buffers, under normal and stressed conditions. It allows them to study risk interactions, fix liquidity risk limits and design conservative strategies for firm-specific and systemic liquidity events. Finally, it helps them price the costs and benefits of liquidity risk, in asset and liability products. To equip NBFCs with the tools and concepts, to appreciate the nuances of liquidity risk in volatile markets, we offer an online programme on Liquidity Risk Management.

Outline

1. Overview

- ❖ Need for Liquidity Risk Management at NBFCs
- ❖ Recent challenges and initiatives in Liquidity Risk Management.

2. Prerequisites

- ❖ Liquidity Gap Statements.
- ❖ LCR.

3. Behavioural Analysis for Non-Maturity Products

- ❖ Simulation Models.
- ❖ Optimization models.

4. FTP for Liquidity Risk

5. Stress Testing for Liquidity Risk

- ❖ Scenario analysis.
- ❖ Risk interactions and Macroeconomic models.
- ❖ Estimation of Tail losses
