

# Programme on IT Risk Management and Business Continuity Management

**August 21 - 24, 2017**

**Coordinator  
Prof Sunil Bakshi**

**National Institute of  
Bank Management  
Pune, India**

# Programme on IT Risk Management and Business Continuity Management

Banks being the focal point of Indian economy, their successful operation is essential to provide services to customers. With increasing dependency on technology, business continuity has become more complex with greater emphasis on planned activity. Aware of this fact, the Reserve Bank of India (RBI) has issued guidelines to banks on developing and implementing business continuity plans and as such most banks have already developed and implemented continuity plans. However, it is not a one-time activity. What is most important is maintaining such continuity plans so as to ensure that banks are ready to face any type of disruptive events and incidents without affecting customer service and banks operations, all this in a cost-effective manner.

## Objectives

The programme is aimed at providing inputs to evaluate developed and implemented business continuity programmes based on the risk management process. Maintaining BCP is more challenging than developing it and one has to understand areas that need to be focused on by the banks to ensure the success of business continuity. This includes periodic testing, reviewing and analysing test results, monitoring changes in risk factors and risk profile affecting the continuity priorities, and developing metrics that shall provide early warning on

## Content

- Risk management process and alignment with business impact analysis.
- Standards and best practices in business continuity, incident management, risk management and BIA and BCP testing.
- Implementing ISO 31000, ISO 22301 and other standards.
- Risk management, cyber-security and BCP.
- Cost-effective recovery strategies based on RTO, RPO, MAO, service levels.
- Direct and indirect compliance requirements associated with BCM – RBI guidelines, customer service levels, data loss incidents and privacy-related compliance, etc.
- Monitoring changes in risk factors and adjusting business continuity plans.
- Change management and business continuity – developing and implementing standard operating procedures to include continuity-related activities and invoking BCP.
- Recovery and human resources – safety, training, response.
- Developing and implementing performance measurement metrics for continuity to provide assurance on ongoing successful implementation of BCM.

## Target Group

Senior managers and top executives from risk management, cyber-security, IT and business operations.

## Dates

August 21 – 24, 2017

The programme will commence at 9.00 am on August 21, 2017 and conclude by 5.00 pm on August 24, 2017.

## Venue

NIBM Campus, Kondhwe Khurd, Pune, India.

## Hostel Accommodation

The programme is fully residential. Participants will be provided well furnished single room AC accommodation in the Institute's hostel complex on the Campus. However, they will not be permitted to bring their family members to stay on the campus. In case any Officer / Executive with physical/medical disability is being nominated, kindly inform us in advance with particulars of disability to facilitate necessary arrangements.

The Institute has facilities for outdoor and indoor games and a large walking/jogging trail for physical fitness besides a yoga centre. Participants are, therefore, encouraged to bring the appropriate clothes/gears.
