Programme on Transition to Indian Accounting Standards (IND AS) Issues and Challenges for Commercial Banks

In line with the global trend, the finance minister in his Budget Speech 2014 announced the decision of adoption of Indian Accounting Standards (IND AS) converged with International Financial Reporting Standards (IFRS) by public entities in India, in a phased manner, beginning from the financial year 2016 - 17. The Ministry of Corporate Affairs (MCA) vide its notification dated January 18, 2016 has announced a roadmap for implementation of IND AS by banks from April 1, 2018 with comparatives for 2017-18.

The Reserve Bank of India (RBI) vide its notification dated February 11, 2016 has advised banks to set up a steering committee headed by an Executive Director to initiate the transition process and the Audit Committee of the Board to oversee the progress in implementation and report to the Board every quarter.

Need and Benefits for Banks

Commercial banks in India face many challenges on adoption of IND AS for accounting and financial reporting purposes including significant additional disclosures. The convergence process in banks is likely to entail several changes to the existing Board-approved policies, financial reporting processes and systems, including major changes in IT systems and software.

The financial impact of convergence for banks will be significant, particularly in areas relating to consolidation of financial statements, valuation and accounting of financial instruments (financial assets, financial liabilities and equity), derivatives and hedge accounting, provisions for loan and investment impairment, de-recognition of financial assets, revenue recognition, enhanced disclosures, etc.

For many banks, there will be a significant impact on their financial position and financial performance, directly affecting key parameters that analysts use to measure and evaluate performance. These changes would need to be planned, managed, tested and executed in advance of the implementation date and are likely to be time-consuming. Bank executives will benefit from this programme to enable them to undertake this transition.

Objectives

To expose the participants to the framework of IND AS, the contents and presentation of IND AS-compliant financial statements, identification and understanding of important issues and the challenges in the transition process, and identification of specific areas of significant impact.

Content

- ❑ Introduction to the Accounting Standards Framework (IND AS).
