Programme on Treasury Products, Operations and Risk Management for Newly Inducted Treasury Officers

Programme Background

Treasury Management is an essential function of a bank or a corporate or any entity dealing with large volumes of funds. With the increased globalization of markets, it has become essential to have an in-depth knowledge of the functioning of the domestic money and debt markets as also the foreign exchange markets for effective management of funds. On account of several policy measures undertaken by Reserve Bank of India and other Regulatory Authorities, different segment of financial markets (Money, Securities, Foreign Exchange and Derivatives Markets) have witnessed significant growth in terms of developments of new financial instruments, number of players, volume of business, etc. Because of these developments, followed by increasing amount of challenges, treasury functions (in Front, Mid, and Back Office) in banks and other FIs has grown manifold and therefore has become challenging to manage. Therefore, it is indispensable for banks and other financial institutions to make their newly inducted treasury official well versed with various Treasury products and their successful marketing to its several clients, undertaking treasury (Domestic & Forex) operations, and managing the risks associated with such operations.

Programme Objective

This 10-days Intensive Training Module, blended with a strong theoretical foundation and real market feeling, will enable Treasury officials, especially the new entrants, not only to understand the Treasury products and their respective operations (in Front, Mid, and Back office), especially in a simulated Treasury environment, but also to equip them with the desired skills to understand the need of their clients and accordingly offer them the right product.

Training Pedagogy

The training pedagogy proposed to be followed here includes Classroom Teaching, focusing on class presentations and interactions, case analysis, Hands-on sessions in Computer Lab., etc. undertaken by internal faculty members, subject experts from the industry, Regulators, and other Resource Persons; followed by the Simulated Trading Game in all Major Treasury Products, undertaken by the industry experts and professionals having long and rich experience in related fields. In order to ensure an effective learning during the training, all participants will be provided with some advance reading materials (soft form) before the training starts, followed by an evaluation (Objective Test & Performance in Trading Game) at the end of the training.

Programme Content

Module I: Treasury Products, Operations and Risk Management

- Importance and Role of Treasury Functions (Front, Mid, and Back Office)
- Ethics in Treasury Operations
- Overview of Debt, Money, Foreign Exchange, Equity, and Derivatives Markets
